Proceeds from calendar can put wag back in tails of neglected street dogs

IF YOU'RE stuck for stocking fillers for your animal-loving friends this festive season, African Tails has released a beautiful 2010 calendar.

The Cape Town charity, which feeds, rescues and finds homes for street dogs, will use proceeds from the calendar's sale towards the sterilisation of these neglected dogs. The calendar has been sponsored by Pedigree.

People aren't the only ones to suffer during a recession, and in South Africa too, once-beloved family pets are landing up on the streets.

But there are success stories – like Phoenix, the once-emaciated German Shepherd that found a loving home.

NEW LEASE: The doggie calendar features rescue cases that have found caring homes.

His picture and those of other rescue cases appear in the calendar, which is

available at retail outlets like Exclusive Books for around R123.
